Significant opportunities for recruiters in 2024

- **Tech salary growth slowed in 2023**, dipping slightly to \$111,193 (compared to an average salary of \$111,348 in 2022).
- **93%** of employed tech professionals are interested in considering a relevant new role
- **49%** of tech professionals are satisfied with their current compensation

- Alternative benefits offer a strong avenue for employer differentiation.** There are clear gaps between benefits tech professionals wish they had and benefits they are offered.
- The most common vacation package offers three weeks of paid time off,** representing 21% of reported vacation policies. 45% of our respondents used all their vacation time and only 17% used less than half.
